

Awkward Art Project

Think this art is 'awkward'? Try having dementia!

Participation and/or Sponsorship Terms and Conditions:

Awkward Art is a yearlong event commencing in spring 2017. As a participating company or sponsor of the Awkward Art Project you agree to hang a piece of art created by one of our Arts & Alzheimer's program participants in your business for 3 months. The artwork will be rotated every 3 months and the piece you currently have will be exchanged for a new one. Someone from We Rage We Weep Alzheimer Foundation will look after this art rotation for you.

You agree to donate \$25 a month for twelve months to We Rage We Weep Alzheimer Foundation for the art to hang in your place of business. Alternatively, you may partner with another company who is willing to sponsor the art to hang in your location paying the \$25 a month on your behalf. At the end of the Awkward Art Project in spring 2018 your business will get the first 'right of refusal' to purchase the artwork should you choose to do so. A tax receipt may be issued if requested for the \$25 per month paid throughout the year. A placard with pertinent information about the project, the art, the artist (if permitted) and the Foundation will be provided with the artwork for example:

Jellyfish Jacket

By JW

Watercolour within texture outline

A person with dementia who no longer remembers how to write their own name can still create this colourful expressive work.

All proceeds go to We Rage We Weep Alzheimer Foundation; a Victoria based independent Canadian Registered Charity. We support those with Alzheimer's disease or related dementia, their caregivers and families. Seventy percent of people with Alzheimer Disease or related dementia still live at home cared for by family or friends. The focus of the Foundation is to encourage independence, support aging in place and fight loneliness and isolation through programs and services that make a difference in day to day quality of life.

By participating you make a difference in the life of someone with dementia, their caregiver and family through art. You help educate your community that those with dementia may have their 'awkward' moments but they are still valued contributing members of society. With your help, Victoria becomes a more welcoming dementia friendly environment filled with understanding and compassion instead of stigma and fear.
